Journal Entry Guidelines

Please follow the guidelines that are outlined below when completing your journal entries.

1. Put the correct heading at the top of your journal page. Use my model to help you do this.

2. Select one of the topics from the “Journal Ideas” paper.

3. Answer the questions that follow the topic you are selecting.

4. Use direct quotes to support your answers.

5. Explain how your quotes support your answers. Please make sure you fully develop this discussion.

6. Please make sure you indent when you start each paragraph.

7. Please include a topic sentence for each paragraph.

8. Keep your events in the order they occur if you are using multiple quotes.

9. Your journal entry should be one page long (handwritten – single space, typed – double space, 12 size font)

10. If you are having trouble filling out the page, add more examples to support your answer. Again, look at my model to see how to do this.
