

Geneseo School District Learning Community

On August 31st, 2020, the federal government announced free breakfast and lunch for all students of all districts across the nation until June 30, 2021.

This waiver has been extended until June 30, 2022. All students in the Geneseo SD will receive free breakfast and lunch in 21-22. All students opting for a free breakfast or lunch MUST take all the lunch components.

Any lunch items bought A La Carte (including milk only purchases) are NOT covered under the waiver and must be paid for. This also includes snacks, doubles, water bottles, and ice cream.

Normally at this time families are filling out free and reduced applications before the deadline of October 17th to ensure their children receive the benefits until the following October school year.

We are asking families to continue to submit applications to Geneseo food Service department even in lieu of the free meal program in 2021-2022 for the following reasons:

- Students who request fee waivers for things like AP exams or college applications will not qualify for the fee waiver if they do not have a current application on file.
- If the Federal government decides to release a new batch of P-EBT Food benefit cards to families during the pandemic, like they did over the summer, they may not qualify if there is not a current application on file.
- A current application will allow students to be temporarily eligible for the first 30 operational days of the next school year. This will buy families time to put in a new application for next year once the reapplication process begins over the summer.
- The completed applications aid in school funding

If you have any questions please call Marilyn Torres 585-243- 3450 x2286 or Director of Food Service Dana Boldt at 585-243-3450 x2386.
